December 16, 2012

To Whom It May Concern:

I am pleased to write on behalf of Sang Eun Patricia Lee. I have known Ms. Lee since January 2012 when she enrolled in a graduate course I was teaching at Montclair State University. Ms. Lee impressed me as a fine student with the potential to become a great teacher. She took two courses with me and she regularly participated in our class discussions raising interesting questions and adding comments about our educational system. Ms. Lee is a bright student and she is well-liked by her peers.

Ms. Lee has completed a successful fieldwork and student teaching experience at Hillside High in Hillside, NJ. During her fieldwork experience, Ms. Lee worked with a cooperating teacher and managed to implement her own lessons and received great reviews from her cooperating teacher. During her student teaching, Ms. Lee was observed by a subject matter mentor, an education mentor and her cooperating teacher. All observers provided Montclair State University with great reviews of her instruction delivery and classroom management. Ms. Lee's lessons are thoughtful, well-written and take into account the different learning styles of the students in her classes. She has a good rapport with her students and has managed to create a safe environment for learning. As a teacher Ms. Lee strives to create a fun and safe environment where her students can flourish as artists.

In addition, Ms. Lee brings the professional experience of a seasoned artist to any school district interested in hiring her. Ms. Lee has created jewelry, ceramics, graphic designs and paintings that explore different aspects of the inner qualities of human beings. Ms. Lee is a fine educator and I am pleased to recommend her for the position she is applying for in your district.

Sincerely,

Ramón Robles-Fernández, Ph.D.
